## The Enough Abuse Campaign

**Presentation by:** 

Jetta Bernier MassKids

July 27, 2015

## The Enough Abuse Campaign

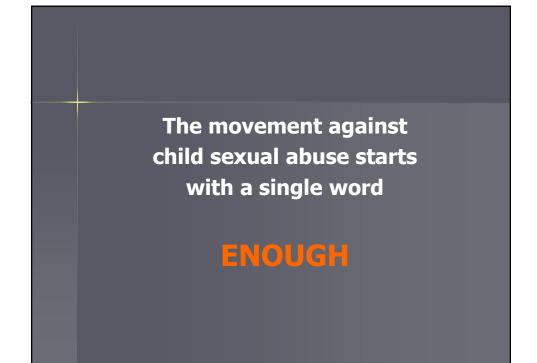

"Massachusetts is one of the first states in the nation to lead a trailblazing effort to prevent child sexual abuse by building a movement of concerned citizens, community by community."

> Rodney Hammond, PhD, Director Division of Violence Prevention U.S. Centers for Disease Control & Prevention 2005

"Currently, Massachusetts lacks a comprehensive, state-wide strategy to reduce sexual assaults against children and to address the critical lack of effective evaluation and treatment resources for both child victims and for child, youth and adult offenders."

> itate Call To Action April 2001

	2002
January:	Clergy sexual abuse scandal breaks in Massachusetts
August:	State-level stakeholders meet to respond to CDC Request for Proposal; form Partnership
September:	Massachusetts selected as one of 3 grantees with Georgia and Minnesota

enough secrets. enough shame. enough hurt. enough confusion. enough denial.

enough child sexual abuse.

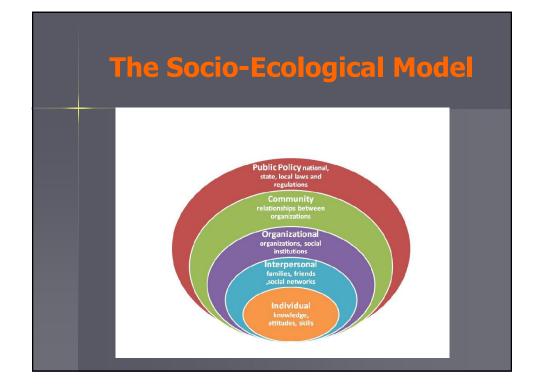

> Comprehensive Effective Sustainable

#### Key Elements of Successful CSA Prevention Initiatives

#### Comprehensiveness

 Comprehensive strategies must succeed in changing the knowledge, attitudes and behaviors of individuals and child-serving systems. Educational programs alone are insufficient to create lasting change.

### Spectrum of Prevention Action Domains

- 1. Fostering Coalitions and Networks
- 2. Strengthening Individual Knowledge and Skills
- 3. Promoting Community Education
- 4. Educating Providers
- 5. Changing Organizational Practices
- 6. Influencing Policy and Legislation

**The Prevention Institute** 

#### Key Elements of Successful CSA Prevention Initiatives

2. Adults and communities take primary responsibility for preventing child sexual abuse. Efforts focused solely on educating children about safety and selfprotection are <u>insufficient</u> to address this major public health problem.

## **Enough Abuse Strategy**

Build a broad-based, statewide movement of concerned citizens to prevent child sexual abuse, community by community.

#### Key Elements of Successful CSA Prevention Initiatives

#### 3. Dual Goals

Efforts are focused on preventing adult perpetration *in the first place* **and** on the early identification and prevention of child-on-child sexual abuse.

## **Enough Abuse Mission**

Prevent people from sexually abusing children *now*.

Prevent children from developing sexually abusive behaviors *in the future*.

#### Key Elements of Successful CSA Prevention Initiatives

4. Collaborative planning/assessment and the fostering of coalitions/networks are fundamental first strategies in addressing complex pubic health issues, such as child sexual abuse.

#### 5. Multi-sector Engagement

The extent and seriousness of child sexual abuse requires initiatives that involve representatives from both the **public and private sectors.** 

#### Key Elements of Successful CSA Prevention Initiatives

#### 6. Multiple disciplines are engaged

from public health, child protection, mental health, child abuse prevention and treatment, sexual assault prevention, juvenile and adult offender treatment/management, and youth development.

#### **MA Child Sexual Abuse Prevention Partnership**

#### **Public Agency Members:**

- Governor's Council to Address Sexual Assault and Domestic Violence
- > Massachusetts Children's Trust
- > Massachusetts Department of Early Education & Care
- > Massachusetts Department of Mental Health
- > Massachusetts Department of Public Health
- > Massachusetts Department of Children and Families
- > Massachusetts Department of Transitional Assistance
- > Massachusetts Executive Office of Public Safety
- > Massachusetts Office of Victim Assistance
- > Massachusetts Sex Offender Registry Board

Private Agency Members:
<ul> <li>&gt;Academy of Pediatrics - MA Chapter</li> <li>&gt;Jane Doe, Inc.</li> <li>&gt;Boston Area Rape Crisis Center</li> <li>&gt;MA Alliance of Children's Advocacy Centers</li> <li>&gt;MA Alliance of YMCAs</li> <li>&gt;MA Association for the Treatment of Sexual Abusers</li> <li>&gt;MA Child Abuse Prevention Program (CAPP)</li> <li>&gt;Massachusetts Dental Society</li> <li>&gt;Massachusetts Medical Society</li> <li>&gt;MA Society for the Prevention of Cruelty To Children</li> <li>&gt;NASW - MA Chapter</li> <li>&gt;Parents Helping Parents</li> <li>&gt;The Home for Little Wanderers</li> <li>&gt;Voice of the Faithful ~ Protecting Our Children Committee</li> </ul>

#### Effectiveness

 Effective initiatives provide technical assistance to local communities around strategic planning, policy development, legislative efforts, training, public awareness, media outreach, etc.

#### Campaign Sites:

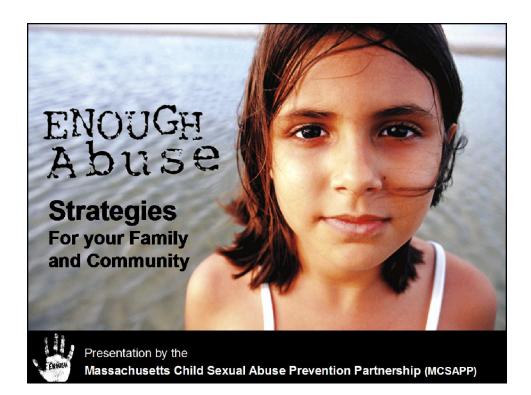

- North Quabbin
- Newton
- Gloucester/Cape Ann
- Cape Cod and Islands
- □ South Worcester County
- Hampshire and Franklin Counties
- Greater Lowell
- Greater Springfield

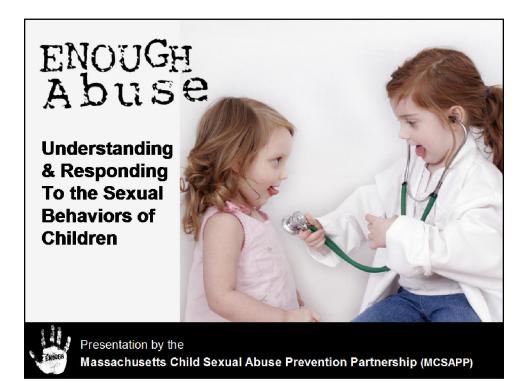

#### **In Development:**

- Middlesex County Burlington, Woburn, Winchester, Lexington, Reading, Medford, Waltham, Cambridge
- Plymouth County Greater Quincy
- Berkshire County Great Barrington Area

#### Effectiveness

 Educational curricula/materials address strategies to address adult-perpetrated sexual abuse and sexual behaviors of children that are inappropriate, coercive, or abusive.

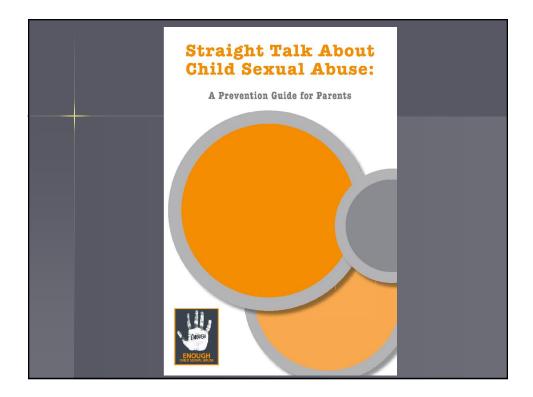

#### **In Development**

- E-Learning Training Tool for schools and youth-serving organizations
- Video Library for parents on how to speak to their kids about body safety, how to be sensitive to cues that might indicate sexual abuse, how to respond to sexual behaviors of children

#### Key Elements of Successful CSA Prevention Initiatives

#### Effectiveness

3. Educational curricula and materials reflect accurate information based on the latest available research and data from the field and are routinely evaluated for their content, and the usability of the information.

## **Evaluation Feedback**

- 95% trainings helped them identify problem behaviors in adults
- 94% learned to assess and respond to unhealthy sexual behaviors in children
- 95% learned where to go and who to talk to if they suspect sexual abuse
- 98% would recommend the trainings to others

#### Key Elements of Successful CSA Prevention Initiatives

#### Effectiveness

4. CSA Prevention trainers are recruited and properly vetted by their state and local colleagues to ensure the selection of skilled and appropriately motivated individuals.

#### Effectiveness

 Ongoing supervision, evaluation and oversight of trainers is provided locally to ensure consistently high quality and accountability.

Enough Abuse Campaign Training of Trainers	Liandation
Date: January 29 and 30, 2015 Location: I	Burlington High Schoo
18 participants were trained; 16 evaluations were received. Scores are on a 0-5 rating with 5 being the highest, most favorable rat	ing.
1. I now understand child sexual abuse as a public health problem.	4.94
<ol><li>I can identify conditions that support child sexual abuse.</li></ol>	4.94
<ol><li>I learned strategies to prevent child sexual abuse that I can teach to my community.</li></ol>	adults in 4.94
<ol><li>The trainer was knowledgeable.</li></ol>	4.94
<ol><li>The quality of instruction was good.</li></ol>	4.87
<ol><li>The trainer's presentation kept me engaged.</li></ol>	4.50
<ol><li>The training was comprehensive and of high quality.</li></ol>	4.87
<ol><li>The training was presented in a clear way.</li></ol>	4.69
9. The Trainers Binder, audio-visuals, and other training aids were be	neficial. 4.94
10. The training met my expectations.	4.50
<ol> <li>I will be able to apply the knowledge learned.</li> </ol>	4.87
12. I feel confident I can conduct high quality workshops in my comm	nunity. 4.50
Total Over	all Score 4.79

#### Effectiveness

**6. Promotional efforts** do not misrepresent or overstate the impact of training on the reduction of child sexual abuse.

#### **Evaluation**

Are these efforts preventing child sexual abuse?

## Massachusetts

> 66% reduction in substantiated cases

(1992-2007)

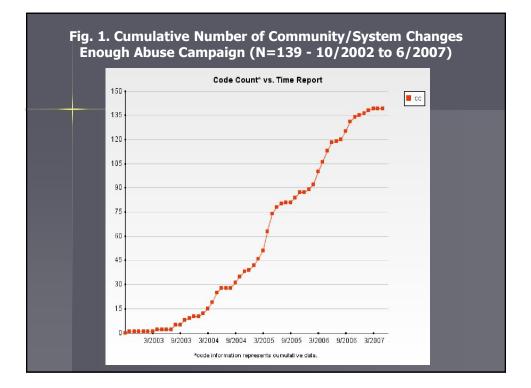

- > 17<sup>th</sup> largest decline among states Finkelhor & Jones, 2007
- > 24% increase (69% 93%) believe adults rather than children should take prime responsibility to prevent child sexual abuse.

Journal on Child Sexual Abuse. July 2012

#### Key Elements of Successful CSA Prevention Initiatives

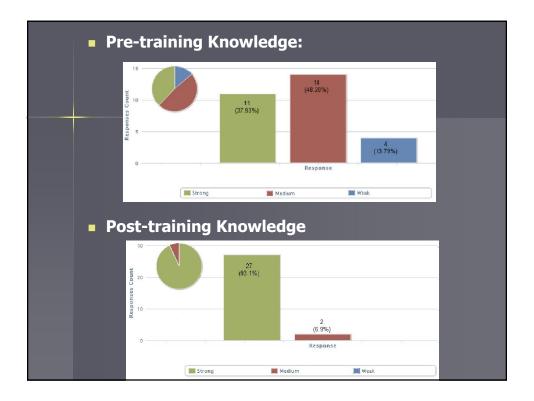

#### Effectiveness

7. Community and systems change is a marker of effective child sexual abuse prevention efforts - defined by CDC as "any program, policy or practice that resulted in institutionalized changes in the community and its systems from those efforts."

#### Effectiveness

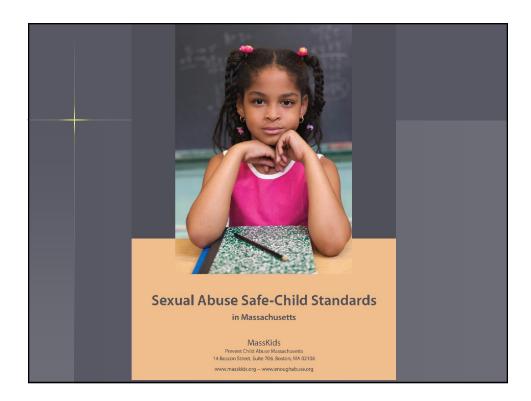

8. Individual behavior change is a marker of effective prevention efforts. Effective programs document changes in participant knowledge, as well as prevention actions taken as a result of the new knowledge.

#### Effectiveness

**9. Proposed policies and legislation** reflect a comprehensive approach, focus on adult and community responsibility, and are grounded in the latest knowledge and experiences of other states and jurisdictions.

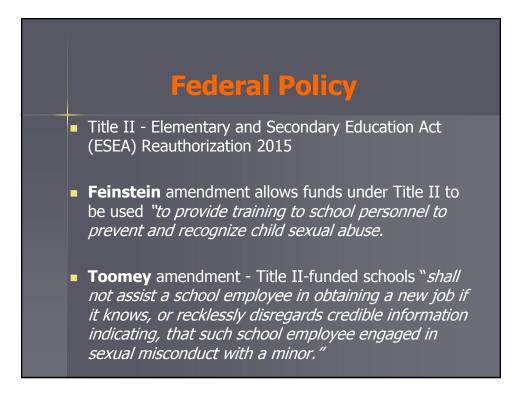

## **State Policy**

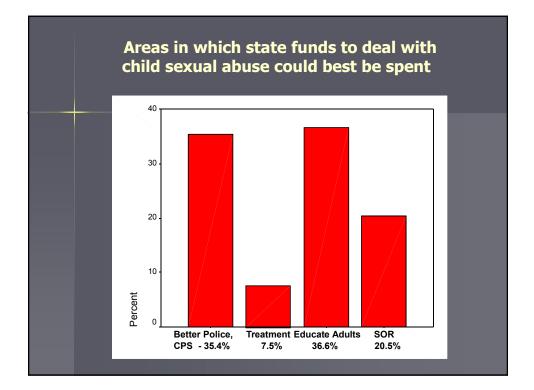

- Statute of Limitations reform
- CSA Prevention Education in Schools & YSOs S.319/H.379 (Lovely/Garballey)
- Educator Sexual Misconduct & Abuse
   S.247/H.1374 (Brownsberger/Heroux)
- Age of Consent (Lovely/Gordon)
   S.868/H1348 Civil; S.869/H.1347 Crim.

#### Effectiveness

10. Child sexual abuse prevention programs seek to measure changes in public opinion as an additional way to measure program impact and effectiveness.

# <section-header><section-header>

#### **Sustainability**

Child sexual abuse – "a silent, violent epidemic"

American Medical Association

"Ending child sexual abuse is one of the most urgent issues of our times..."

Ms. Foundation for Women

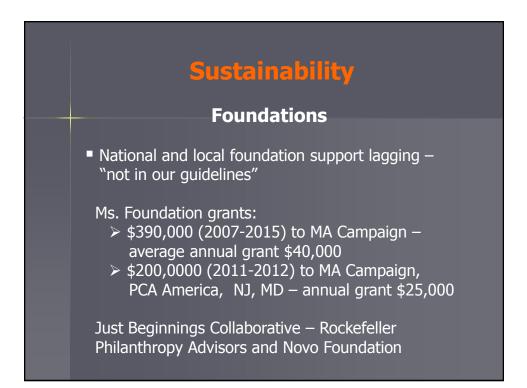

### **Sustainability**

"...the chronic under-resourcing of and resistance to the issue."

#### **Sustainability**

#### Federal

- \$ 3.3 million investment made by CDC in three,
   5-year grants to MA, GA and MN. Only MA
   sustained and expanded the effort. No funding to support sexual abuse prevention since 2007.
- **OCAN** no funding for child sexual abuse prevention; no leadership on the issue.
- Department of Justice funds post-abuse responses w/focus on sex trafficking; data show that 90%+ of these victims were *first* victims of child sexual abuse.

#### Sustainability

#### State

- Minnesota (2014) \$300,000 to Dept. of Health and MNCASA to prevent sexual assault throughout the lifespan.
- Massachusetts (2015) \$150,000 to Dept. of Elementary and Secondary Education to support child sexual abuse prevention education and policies in schools.
- Colorado \$72,000, North Carolina \$50,000 and South Dakota - \$21,000 to support Task Forces on Child Sexual Abuse Prevention

## Maryland Partnership to Prevent Child Sexual Abuse

# New York Partnership for Child Sexual Abuse Prevention

Suffolk County - Long Island

Rensselear (Albany), Nassau (Long Island) and Cayuga County

#### 2015

#### California

Sacramento / Sierra Region Prevent Child Abuse California/ The Child Abuse Prevention Center 15 Counties

## Nevada Child Sexual Abuse Prevention Partnership

## **Enough Abuse Campaign**

"...an effort that breaks the mold on child sexual abuse in many ways. It goes beyond a limited set of trainings to foster the building of real and lasting relationships among diverse stakeholders. Its emphasis on community collaboration truly sets it apart from previous efforts."

Ms. Foundation for Women, 2010
